Harvest of the Month
Network for a Healthy California

The Harvest of the Month featured vegetable is beets

Health and Learning Success Go Hand-in-Hand
You can help your child learn how to make healthy choices. Students need to take what they learn in school and use it in their daily lives. Serve healthy meals with a variety of colorful fruits and vegetables. Set aside time each day for your family to be active. Harvest of the Month can help you and your child be healthy and more active – for a lifetime.

Let’s Get Physical!
• At home: Set aside 10 minutes in the morning and at night to do chores (sweeping, mopping, and cleaning). Then, set aside 20 minutes for fun play time.
• With the family: Teach your child some of your favorite childhood games – Mother-May-I, Red Rover, hopscotch, and hula-hoop.

For more ideas, visit: www.shapeup.org

Produce Tips
• Look for smooth, hard, and round beets that are free of cuts and bruises.
• When possible, choose fresh beets with green tops still attached. The greens should look healthy, not wilted or brown.
• Remove the green tops from beets and store each in separate plastic bags.
• Keep beets in the refrigerator for up to two weeks. Cook the green tops within one to two days.
• Choose low-sodium or no salt added canned beets. Use before expiration date.

For more information, visit: www.fruitsandveggiesmatter.gov/month/root_vegetables.html

Healthy Serving Ideas
- Steam beets and slip off the skins. Sprinkle lightly with seasonings and enjoy.
- Roast beets with skins on in the oven at 375 degrees for about 40 minutes.
- Add fresh sliced or canned beets to spinach salads.
- Sauté beet greens with chopped onion and garlic for a healthy side dish.

Mandarin Beet Salad
Makes 4 servings. 1 cup each. Prep Time: 10 minutes

Ingredients:
2 cups canned beets, drained
1 cup canned mandarin oranges (packed in 100% juice)
1 cup currants or raisins
1. Drain mandarin oranges and keep ¼ cup of the juice.
2. In a bowl, combine beets, mandarins, currants, and ¼ cup of reserved juice. Mix well.
3. Serve immediately or chilled.

How Much Do I Need?
• A ½ cup of cooked or raw beets is a good source of folate and manganese.
• A ½ cup of cooked beet greens is an excellent source of vitamin K, vitamin A, and vitamin C. It is also a good source of riboflavin.
• Riboflavin is also called vitamin B2. It is important for building healthy red blood cells.

The amount of fruits and vegetables you need depends on your age, gender, and physical activity level. Eat healthy, balanced meals with a variety of colorful fruits and vegetables every day. This will help you get all the vitamins and minerals you need from the foods you eat. And make a goal to be active every day.

*If you are active, eat the higher number of cups per day. Visit www.mypyramid.gov to learn more.

What’s in Season?
California grown beets are available year round. They are available fresh and canned. California grown varieties may be fresher and cost less than varieties shipped from other states or countries.

Try these good sources of riboflavin: almonds, cooked beet greens, eggs, fortified cereals, and lowfat milk.
